Everyone should have the opportunity and ability to play sports.

But for many, that's not the case.

That's why the Tamai Sports programme exists – to support healthier children and communities by removing the barriers to participation in sport.

Tamai Sports provides a safe, positive, and culturally appropriate experience for tamariki aged 8 to 13, whānau, and schools, where the outcomes live long after the programme.

Your support will actively remove barriers and ensure our tamariki have the transport, equipment, coaches, mentors, kit, and kai they need to have a go at sports and thrive!

This will be a great day out for an even greater cause. We have a full day of fun and entertainment lined up for you.

If the golf course is open, we play no matter what the weather.
